

C-ITS FORUM 2024

HENRIK.BENNER@IVU.DE

IVU TRAFFIC TECHNOLOGIES AG

ÖPNV BEVORRECHTIGUNG MIT C-ITS DIENST TSP

The image displays a mobile application interface for a tram system, showing a route list and a menu. The interface is overlaid with several semi-transparent copies of itself, illustrating a sequence of events or a specific feature.

Top Status Bar (Leftmost Screenshot): Shows a home icon, signal strength, Wi-Fi, and a notification icon circled in yellow. The text reads "2 Aachen Markt", "299", "+7", "09:53:49", and "08.02.2024".

Menu (Leftmost Screenshot): Includes buttons for ITCS, Ticketing, Karte, Meldungen, Leitstelle, Navigation, and Störung.

Route List (Bottom-most Screenshot): Shows a vertical list of stations: Markt, Aachen Bushof, Hansemannplatz, Kaiserplatz, Scheibenstraße (highlighted with a yellow box), and Ostfriedhof. A yellow bar above Scheibenstraße indicates "LSA in 250 m". An orange box with a white 'X' and the text "Halt zu erwarten" is overlaid on the right side.

Other Screenshots: Show similar views with different times and LSA (Line Start Announcement) distances: "LSA in 180 m" (green bar) and "LSA in 80 m" (orange bar).
